

UDcast to Present Strategy for Bridging the Digital Divide at CommunicAsia 2004

SOPHIA ANTIPOLIS, France- 4 June, 2004 - UDcast, a leading provider of software and hardware solutions that enable broadband Internet access and datacasting over satellite and digital terrestrial TV, today announced Juan Aguirre, market and application manager, is a featured speaker at CommunicAsia 2004 taking place 15 -18 June at the Singapore Expo. Aguirre will discuss the challenges and solutions to today's digital divide in a presentation entitled "Bringing terrestrial broadband performances and functionalities to satellite connections."

Aguirre will examine the challenges of delivering broadband Internet access via satellite as well as discuss the solutions available to satellite service providers who want to offer the same level of performance and functionality of terrestrial broadband, including high performance end-to-end VPN connections and a fully secure network.

Juan Aguirre brings more than six years of experience in broadband and digital TV to his position as market and application manager at UDcast. He manages marketing, public relations and product marketing functions for the company and has played an instrumental role in the launch of UDcast's UDgateway[®] appliances enabling broadband Internet access and datacasting over IP-based broadcast media. Aguirre's previous experience includes marketing and business development with both ADSL and IPTV industry leaders. He received a master's degree in economics from the University of Nice, Sophia-Antipolis, France.

About UDcast

UDcast is the leading provider of solutions for full IP over satellite and digital terrestrial TV. Capitalizing on UDcast's core technology, UDcast provides standards-based software and hardware solutions that enable broadband Internet access and datacasting over IP based broadcast media. UDcast's feature-rich solutions support any IP application regardless of the underlying network infrastructure, enabling the implementation of solutions meeting customers' expectations and the delivery of value-added services by service providers. Founded in 2000, UDcast maintains its global headquarters in Sophia Antipolis, France with offices in Paris and Washington, D.C. For more information, visit www.udcast.com.
