

For Immediate Release

BENTLEY TELECOM TO SHOWCASE UDCAST'S UDGATEWAY AT DUBAI'S CABSAT 2004

UDcast's leading all-in-one satellite access gateway will be demonstrated to Bentley Telecom's customers from throughout the Middle East

Sophia-Antipolis, France - 3 February 2004 - UDcast, a provider of software and hardware solutions that enable broadband Internet access and datacasting over satellite and digital terrestrial TV, will exhibit its industry-leading broadband Internet satellite access gateway on Bentley Telecom's stand (S6-30) at the 10th Middle East International Cable, Satellite, Broadcast and Communications Exhibition (CABSAT) Feb.8-10 in Dubai.

The UDgateway® enables satellite service operators seeking to differentiate their offerings through a value-added service to overcome the challenges of satellite-delivered broadband Internet access. The UDgateway®, specifically designed for satellite-delivered broadband Internet access, contains a wealth of features including performance enhancement, security and essential IP functionality.

"With the UDgateway®, our broadband Internet satellite customers can receive the level of performance usually associated with terrestrial broadband connections," said Anthony Walker, CEO, Bentley Telecom. "We are delighted to offer our customers throughout the Middle East an unparalleled level of performance and security."

"UDcast is committed to providing integrated, end-to-end value-added solutions enabling Bentley Walker to cost effectively offer value-added services," said Didier Tymen, UDcast's VP of Sales. "CABSAT is a great opportunity to showcase Bentley Walker's great offers in association with our cutting edge appliances."

About UDcast

UDcast is the leader in enabling full IP over satellite and digital terrestrial TV. Capitalizing on UDcast's core technology, UDcast provides standards-based software and hardware solutions that enable broadband Internet access and datacasting over IP based broadcast media. UDcast's feature-rich solutions support any IP application regardless of the underlying network infrastructure, enabling the implementation of solutions meeting customers' expectations and the delivery of value-added services by service providers. Founded in 2000, UDcast maintains its global headquarters in Sophia Antipolis, France with offices in Paris and Washington, D.C. For more information, visit www.udcast.com
