

## **UDcast participates to 3GSM World Congress in Barcelona from 13<sup>th</sup> to 16<sup>th</sup> of February 2006** (Stands D156/Hall 1 and G88-G89/Hall 2)

Live demonstrations of the world's most advanced Mobile TV network equipment developed by UDcast to the expected 50,000 3GSM visitors

---

Sophia-Antipolis, France, February 6, 2006 – The globally recognised expert in IP over broadcast media (Satellite, TV, Radio), UDcast, announces its presence at 3GSM World Congress\* from 13<sup>th</sup> to 16<sup>th</sup> of February in Barcelona (<http://www.3gsmworldcongress.com>).

UDcast is planning an active participation in this biggest mobile telecommunications event of the year, giving an opportunity to the expected 50,000 3GSM visitors to personally discover and appreciate the latest generation of the UDcast's Mobile TV infrastructure solution.

3GSM is the annual event gathering the biggest number of global mobile telecommunications players and consequently the future of the Mobile TV, the new fast growing market, on which UDcast keeps a dominant position.

UDcast will be present and demonstrating Mobile TV in two areas:  
**Stand D156 in Hall 1** (the main stand), and  
**Stand G88-G89 in Hall 2**  
(The Smart Communication Valley Zone).

**Visit UDcast directly at 3GSM or contact us to book your individual demonstration of the latest Mobile TV technology.**

Filip Gluszak, VP Marketing of UDcast will be present on the main booth.  
Phone: +33 4 93 00 16 00 - Mobile : +33 6 03 23 30 01 - [filip.gluszak@udcast.com](mailto:filip.gluszak@udcast.com)

UDcast will be demonstrating a complete chain for Mobile TV broadcasting (from content production to playback devices) based on the world's most popular DVB-H standard. This will include the third generation of UDcast's equipment located at the heart of mobile TV networks: DVB-H - IP Encapsulators, IPE Managers et UDbox Analyzers – already established in a large number of DVB-H trials around the world.

The solution of UDcast has earned a firm reputation for its functional advancements, strong industrial partnerships and integrated scalability, required for large-scale commercial deployments.

(\*) The 3GSM World Congress is the world's biggest mobile communications conference and exhibition. The 3GSM World Congress 2006 will take place for the first time at the Fira de Barcelona, Spain, between 13 and 16 February 2006. The event attracted 34,000 visitors from more than 171 countries, with more than 600 exhibitors and 1,200 media and analyst visitors in 2005.
