Algérie Télécom Selects UDcast to Outfit 1500 High Speed Connection Sites Via Satellites for the Algerian State Banks

*Located on each site, the UDgateway appliances enable the national Algerian operator
to provide quality and secure service*

SOPHIA-ANTIPOLIS, France – August 21, 2006 – UDcast, a leading provider of solutions enabling full IP over broadcast and satellite media, announces the signature of a contract with Algérie Télécom as the Algerian operator deploys 1500 satellite sites over the Algerian territory.

According to the terms of the contract, Algérie Télécom Satellite (a subsidiary of Algérie Télécom) has ordered 1500 UDcast UDgateway® appliances to install and tenfold the performance of 1500 satellite sites that will be gradually installed over the Algerian territory. The installed broadband will be available to the branches of the six state banks, including La Banque Centrale d'Algérie and The Algerian Post, and will assure the reliability and the complete security of inter bank clearing operations.

UDcast has designed and developed the UDgateway® to enable broadband Internet access totally adapted to two way satellite systems, essential to remote locations or that are impacted by the digital divide.

“From all view points the choice of UDcast answered all of our technical demands, appreciated our commercial worth and put our goals within reach,” declares Mahieddine Maache, general manager of Algérie Télécom Satellite, a subsidiary of Algérie Télécom. “The quality of UDcast equipment implanted on the satellite infrastructure enables us to answer to our client demands in the banking industry with a secure and competitive service. This is essential for us.”

“UDcast welcomes this contract that highlights the trust that Algérie Télécom puts in its expertise and its response capacity to large projects,” emphasizes Hubert Zimmermann, chief executive officer of UDcast. “In the same way as our present growth on the mobile TV market and our ongoing expansion of IP over satellite, the present case in Algeria confirms the accuracy of our choices and the expertise of our solutions, both of which we are proud of.”

UDcast provides infrastructures for networks over satellites to clients all over the world. UDcast has been a player on the Algerian market since 2005 with several contracts, notably with the Ministère de la Jeunesse et des Sports and Sonelgaz Company (Société Nationale de l'Electricité et du Gaz).

About UDcast

UDcast is a leading provider of IP over broadcast media, focusing on IPTV to the mobile DVB-H solutions as well as satellite-aware enterprise networking solutions. UDcast provides DVB-H standard compliant solutions for the delivery of IPTV to mobile devices. In addition, UDcast provides satellite aware IP appliances that bring terrestrial-like performances and security to broadband satellite links. UDcast's feature rich solutions enable satellite service providers to deliver revenue-generating value added services that meet enterprise needs. Founded in 2000, UDcast maintains its global headquarters in Sophia Antipolis, France. For more information, visit www.udcast.com.
