
Fast Facts about UDcast

About UDcast

UDcast is a leading software company providing IP broadcast solutions for the delivery of content to a broad range of devices over existing and emerging wireless networks worldwide.

Products and Services

UDcast delivers solutions for two key markets - *Mobile TV and Enterprise Data*.

Mobile TV Technology

UDcast is the worldwide supplier of Mobile TV IP encapsulation solutions and delivery of TV over digital terrestrial networks to mobile devices.

UDcast provided the first head-end, distribution and monitoring solutions for mobile TV broadcasters and mobile operators.

Mobile TV products: DVB-H / DVB-SH IP Encapsulator, DVB-H / DVB-SH IPE Network Manager, DVB-H / DVB-SH / DVB-T iSplicer, DVB-T Aggregator

Enterprise Data Solutions

UDcast is the global provider of platform-independent, IP Performance Enhancement and Data Compression appliances that make it possible to use bandwidth constrained IP links like satellite, WiMAX or Cellular Data services throughout the enterprise.

UDcast's IP appliances bring terrestrial-like performance, data compression and security to broadband satellite links. Service providers can offer their customers a distinctive product that brings added value to their businesses.

The IP appliances are equally well suited to any other type of bandwidth-constrained data links, typically any Wireless link like WiMAX and Cellular.

UDcast's unique acceleration technology is also available for integration in terrestrial WAN and WiMAX networks through collaboration with external partners.

Enterprise Data products: UDgateway WANcompress

UDcast also provides a portfolio of Services:

Custom Development

UDcast has the ability to rapidly develop specific products covering needs not found in any existing product on the market. Existing projects cover the areas of Digital Broadcasting, IP data communications performance enhancement, compression and security as well as IP Multicast.

UDcast senior and experienced developer team provides one of the best time-to-market performances in the software development community.

Professional Services

UDcast long experience in Mobile Television as well as IP data link optimization and security is available for specialized consulting in these areas.

Training

UDcast training has trained more than half a thousand professionals in the world, allowing them to quickly ramp up the leading-edge technologies of Mobile TV.

Competitive Positioning	<p>UDcast is a leader in established and emerging new Mobile TV and Terrestrial TV standards, including DVB-H, DVB-SH, DVB-T2, ATSC M/H and WiMAX.</p> <p>Open standards based solutions reduce the cost of services and encourage widespread adoption of mobile TV, satellite IP communication and extreme data compression.</p> <p>UDcast provides the flexibility in deployment for service providers' evolving business models.</p> <p>All-in-one solutions for satellite service providers and enterprise networks provide the highest level of performance and security.</p>
Executive Team	<p>Antoine Clerget - Chief Executive Officer and Co-Founder Patrick Cipièrè – Mobile Television Architect and Co-Founder Emmanuel Duros – Networking Director and Co-Founder Aymeri Boitreaud – Vice President Sales and Chairman of the Board Luc Ottavj - Chief Scientist and Co-Founder</p>
Key Partners	<p>UDcast's Mobile TV technology is integrated within the end-to-end solutions of major telecom and broadcast systems providers, including Motorola, Nokia, NSN, Alcatel-Lucent, Tandberg-Ericsson, Cisco-Scientific Atlanta, Harris Broadcasting, RRD and others.</p>
Awards	<p>Red Herring Hot 100 Award, 2007; Innovation Star, Cross'Innov 2008</p>
Investors	<p>Baytech Venture Capital, CDC Innovation Partners, Caisse des Dépôts, SHIG 1 Limited</p>
