

Partnership with Divona

Sophia Antipolis (France) – 15 October 2000

As of October 15, 2000, Divona and UDcast have entered in a partnership agreement where UDcast supply to Alliance Sat off the shelf UDstation and UDbbox products. Under this agreement Divona develops and markets complete solution based on the Internet infrastructure through satellite communication.

According to Didier Tymen, UDcast CEO: "Unidirectional links like digital satellite links, are perfects to address some of the key challenges of the Internet, like rapid expansion, high speed access, delivery/access anywhere or anyplace. UDcast mission is to develop off the shelf software which runs on standards hardware but also services to allow to use Internet in a full transparent way on those medias. At UDcast, we are committed to adding value to every company in the Internet world, like Divona, we are proud to have a VAR partners like Divona who offer a large satellite capacity bandwidth and full services to any customer based in Europe or North Africa."
