

# UDLR Working Group

---

53<sup>rd</sup> IETF

March 2002

Minneapolis – US

# Agenda

---

- ✍ WG activities updates 05 min
- ✍ ID update: draft-ietf-udlr-dvmrp-conf-02.txt 10 min
- ✍ Identifying Mcast Implications in LLTM for UDLs  
draft-ietf-udlr-multicast-issues-00.txt 10 min
- ✍ Discussion about a general document 10 min
- ✍ Moving RFC status to draft standard 10 min
- ✍ Other issues/discussions 15 min

# WG activity updates

---

- ✍ 3 drafts got published at last IETF:
  - ✍ draft-ietf-udlr-dvmrp-conf-01.txt
  - ✍ draft-ietf-udlr-pppoe-00.txt
  - ✍ draft-ietf-udlr-security-00.txt
- ✍ New update of the udlr-dvmrp draft
- ✍ Udlr-pppoe should not be updated but included in a more general document
- ✍ New ID: draft-ietf-udlr-multicast-issues-00.txt
- ✍ Need for a more general document describing which protocols are known to work with UDLR
- ✍ RFC 3077 is one year old, various implementations: time to move RFC status to draft standard ?
